You will have every chance of succeeding with Vinea Loire, a consulting agency specialised in the wine business!
The Agency, created four years ago by Henri Duval, gives the utmost importance to human relations by creating relationships based on confidence and proximity.

The company's founders benefit from the following major advantages:

- # over twenty years' experience as consultants for companies in the wine trade,
- # a geographic location in the heart of the Loire Valley vineyard, between Touraine and Anjou-Saumur, one hour from Paris by high-speed train.

Vinea Loire's approach is specific :

- # **Analysis**
- # of your assets,
- # of your liabilities,
- # of your family, patrimonial and financial situation.
- # **Property search**
- # visits,
- # negotiations until agreement is reached on the property and the price.

Support

- # for appraisal,
- # for legal arrangements,
- # for the financial package,
- # for setting up a plan of action.

60 appellation areas can be identified in the Loire Valley.

They are generally divided into four major zones:

- # Sancerre and Pouilly in the centre of the Loire
- # Touraine, Chinon, Bourgueil and Vouvray
- # Anjou-Saumur, Coteaux du Layon and Crémant de Loire
- # Muscadet and Gros Plant in the Pays Nantais

Henri Duval, with his highly specific background, is qualified to help investors make their choice.
